<https://www.linkedin.com/in/siddarood-gumashetti-5456a6203>

Professional Summary

Full Stack .NET Developer with **3+ years of experience** in the Microsoft technology stack, including **hands-on software development, structured .NET training, and enterprise exposure**. Specializes in building **scalable, secure, and high-performance web applications** using **ASP.NET Core, C#, SQL Server, and modern JavaScript frameworks**.

Experienced across the full software development lifecycle, including **API development, database design, front-end integration, deployment, and maintenance**. Strong focus on **clean architecture, performance optimization, and writing maintainable code**, with proven ability to collaborate effectively in **Agile/Scrum teams**.

Technical Skills

- **Backend** : C#, .NET, ASP.NET Core (Web API, MVC, Razor Pages), RESTful APIs, EF Core, Dapper, ADO.NET, LINQ
- **Frontend**: HTML5, CSS3, JavaScript (ES6+), Bootstrap, jQuery, React.js
- **Database**: SQL Server (T-SQL, Stored Procedures, Query Optimization), SQLite, DACPAC
- **DevOps & Tooling**: Linux, Bash Scripting, Docker, Git, GitHub, Postman, Visual Studio, VS Code
- **Cloud (Exposure)**: AWS (EC2, S3)
- **Soft Skills**: Problem-solving, adaptability, communication, quick learner

Work Experience

Caliber Technologies - Software Engineer

Nov 2023 – Present

- Worked on an **Enterprise LIMS Application** - a large-scale web app designed to manage lab workflows, data, and quality processes - contributing to the **migration of the legacy VB.NET system to .NET Core (C#)** improving maintainability, scalability, and performance.
- Designed and developed **responsive web interfaces using Razor Pages + Web Apis**, enhancing user experience and performance across multiple client environments.
- **Implemented automated database deployments** using **DACPAC**, ensuring consistent release management across all the instances and reducing patch deployment time by over **60%**.
- **Developed automation scripts** (batch and shell) to streamline build and patch preparation, cutting manual effort by **80%** and minimizing release errors.
- **Led the transition** from Visual Studio IDE to **VS Code**, reducing licensing costs and boosting productivity through AI-assisted extensions such as **GitHub Copilot** and **Augment**.
- Collaborated in **Agile Scrum teams**, contributing to planning, stand-ups, and sprint delivery of features on schedule.
- Provided **build and deployment support** in coordination with clients and cross-functional teams to ensure smooth delivery and post-release stability.
- Deployed an existing in-house **IIS-hosted application to AWS Linux**, enabling cloud-based scalability and improved reliability.

Key Achievement

Won **1st place** in a company-wide hackathon by designing and implementing an **automated user transaction mailing system**, sending **real-time notifications** to users. The solution earned **team recognition and a ₹1 lakh prize**, while managing regular project deliverables.

- Interacted with clients to resolve **payment and transaction-related issues**, ensuring timely resolution and operational continuity.
- Supported **financial process management**, ensuring data accuracy and compliance with internal standards.
- **Transitioned into software development** by self-learning and upskilling in **Full Stack .NET technologies**, setting the foundation for a successful technical career.

Education

***B.Sc. (Electronics, Distinction)** – B.V.V.S. Basaveshwar Science College, Bagalkot (2021)*

***Pre-University (Science Stream)** – Alva's PU College, Mangalore (2017)*

Certifications

Full Stack Web Development with .NET Core – Naresh i Technologies, Hyderabad (2023)
